Summary

This is a BL touch mount I made for the Voxelab Aquila. I made it specifically to work with the Mini-me V4.

This is a BL touch mount I made for the Voxelab Aquila. I made it specifically to work with the Mini-me V4.

This is a link to the hot end shroud: <https://www.printables.com/model/197957-mini-me-v4-lightweight-ender3-hotend-duct-stock-pa> .

I printed in PLA and its working fine

My Z-Offset is now -3.50
